

San Diego Gas & Electric, 2008 Test Year General Rate Case, Phase 2 -- Large  
Requested Rate Increase  
Friday, February 02, 2007

On January 31, 2007, San Diego Gas & Electric filed with the California Public Utilities Commission an Application to Update Marginal Costs, Revenue Allocation, and Electric Rate Design, effective January 1, 2008. This application is Phase 2 of SDG&E's 2008 Test Year General Rate Case.

In the application, SDG&E requests significant rate increases. For street lighting, SDG&E requests an overall increase of 11% over present revenues. I have downloaded the application and testimony from SDG&E's website, but I have not analyzed any of it.

At the February 28 meeting of Executive Committee, we need to discuss this upcoming rate case and whether CAL-SLA wishes to intervene and how much to budget for the year and half effort.
